

Net Goals Impact

A-League 2020/21

Players at Clubs Finishing in the **Top Six** Compared to **Bottom Six**

Net Goals Impact - the first chart - shows the increase (or decrease) in net goals (i.e. goal difference) when a player is on the pitch compared to not, standardised to a 90 minute period. The second chart is simply average goal difference per 90 minutes of player involvement. The third chart is points per match for matches where the player made an appearance.
