

# Net Goals Impact

## A-League 2020/21

### Players at Clubs Finishing in the **Top Six** Compared to **Bottom Six**

The y-axis shows the increase (or decrease) in net goals (i.e. goal difference) when a player is on the pitch compared to not, standardised to a 90 minute period.

Created by Justin Lyons / @lyonjust  
Data provided by fbref, as at 8 July 2021  
Showing all players with minimum one 90 played  
Yellow shaded area shows players above 90th percentile or below 10th percentile in Net Goals Impact, and with between five and twenty-two 90s played  
Selected players annotated
